WORK EXPERIENCE

Ishkaster Media

Monrovia, CA

Software Engineer Intern

August 2024 - Present

- Developed a mobile application for Shop Sari Sari, an online marketplace, through Shopify using HTML/CSS, JSON, and JavaScript
- Obtained API keys from multiple eCommerce platforms to set up an inventory tracking system
- Worked on wireframes for the app's UI/UX

Los Angeles County Internal Services Department

Los Angeles, CA

ITSS Field Services Technician Intern

March 2024 - September 2024

- Installed and configured hardware, software, systems, networks, printers, and scanners
- Troubleshoot system issues related to network connectivity, software installation and configuration, and printing
- Assisted with the deployment of new applications and updates to existing applications
- Provided technical support to users via telephone or remote access
- Managed inventory of IT assets such as laptops, desktops, servers, and peripherals

Pasadena City College

Pasadena, CA

Software Engineer Intern

March 2024 - June 2024

- Collaborated with the development team to design and build an app that connects students with the college
- Translated wireframes into high-quality code with React Native, TypeScript, and the Ionic Framework
- Optimized components for maximum performance across both iOS and Android platforms
- Integrated third-party APIs to enhance app functionality
- Implemented user authentication and secure data storage using Firebase

Los Angeles County Internal Services Department

Los Angeles, CA

Full Stack Developer Apprentice

September 2022 - August 2023

- Collaborated with a team of two seasoned web developers to build a website to track over 200 county parking lots
- Used HTML, CSS, Bootstrap, JavaScript, C#, and ASP.NET MVC to satisfy customer parameters
- Created stored procedures, triggers, tables, views and functions using SQL
- Optimized existing code base for better performance and scalability
- Designed high quality responsive wireframes and graphic images to use on multiple platforms
